Why take out insurance for your dog or cat?

Scientific and technological advances in veterinary medicine offer increasingly modern and more effective treatment options. But the consequence of this progress is that treatment costs are often more expensive. Insurance to cover sickness and accident provides you with financial security.

The actual insurance premium you pay will depend on the following factors:

- Selected product (Basic, Clever, Optima) and the associated cover
- The selected deductible
- Age of your pet
- Dog breed, house cat vs. free-roaming cat
